

Application Building Execute and Test Your Model

Date	19 November 2022
Team ID	PNT2022TMID45350
Project Name	Car Resale Value Prediction

1. Home page

2. Data Entry Page

A screenshot of the 'Data Entry Page' for the 'Car resale value Predictor'. The page has a light gray background with a subtle image of a car. The title 'Get the Accurate Resale Value of Your Car' is centered at the top. Below the title, there are several input fields for user data: 'Registration year' (2011), 'Registration Month' (Janaury), 'Power of car in PS' (105), and 'Kilometers that car have driven' (150000). There are also radio button options for 'Gear type' (Manual, Automatic, Not declared) and 'Your car is repaired or damaged' (Yes, No, Not declared). At the bottom, there are dropdown menus for 'Model Type' (2 Reihe), 'Brand' (Opel), 'Fuel Type' (Diesel), and 'Vehicle type' (Cabrio). A 'Submit' button is located at the bottom center. The browser's address bar shows the file path: 'C:/Users/SURESH%20N/Desktop/Car%20Resale%20Value%20Prediction/Flask/templates/value.html'. The Windows taskbar at the bottom is identical to the one in the first screenshot.
